

Harrie de Laat

Outsystems Consultant

PROFILE

Harrie is a relaxed person who likes to mingle with people. Harrie is appreciated by his clients for his pragmatic approach and flexible work attitude. He is able to break down complex matter into manageable parts.

Harrie likes to work in a team, but can also perform the necessary work independently. Thanks to his experience with various customers, each with their own design and use of SAP, Harrie quickly finds his way and is functionally broadly aware of the possibilities.

IT EXPERIENCE

SAP	since 2001
Outsystems	since 2018

CERTIFICATES

2022 - Associate Reactive Web Developer – O11
2022 - Associate Tech Lead – O11
2020 - Associate Web Developer – O11

WORK EXPERIENCE

Harrie has started to delve into rapid development with Outsystems since 2018. This to make himself more widely deployable and because the combination with SAP can be of great added value within an organization.

Harrie has worked within management organizations as well as project organizations. Harrie also tries to keep abreast of what is going on within Outsystems. He is very interested in the newer techniques and how they can be used.

Harrie has not been able to gain a lot of customer experience with regard to Outsystems. Unfortunately, he was unable to complete a project due to emigration.

Harrie has developed various applications for himself to simplify some processes for his self-employed company. Among others, Harrie has made his own invoice application, a cashbook application, his own user application a resume application, etc.

SKILLS

Great adaptability to new and changing environments. By trying many times, getting stuck, looking for online solutions and implementing them, Harrie now has a broad picture of the possibilities within Outsystems. Harrie is determined, with attention to detail and hopes to lead projects in the future based on acquired knowledge and experience.
